REPORT ON REVIEW OF CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

**The Board of Directors
Amlak Finance PJSC
Dubai
United Arab Emirates**

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of **Amlak PJSC, Dubai, United Arab Emirates** (the “Company”) and its **Subsidiaries** (together referred to as the “Group”) as at 30 September 2021, and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the nine month period then ended, and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the period ended 30 September 2021 (Unaudited)

1 ACTIVITIES

Amlak Finance PJSC (the ‘Company’) was incorporated in Dubai, United Arab Emirates, on 11 November 2000 as a private shareholding company in accordance with UAE Federal Law No (8) of 1984, as amended. At the constituent shareholders meeting held on 9 March 2004, a resolution was passed to convert the Company to a Public Joint Stock Company. The Federal Law No. 2 of 2015, concerning Commercial Companies has come into effect from 28 September 2016, replacing the Federal Law No. 8 of 1984.

The Company is licensed by the UAE Central Bank as a finance company and is primarily engaged in financing and investing activities based on structures such as Ijara, Murabaha, Mudaraba, Wakala and Musharaka. The activities of the Company are conducted in accordance with Islamic Sharia’a, which prohibits usury, and within the provisions of its Articles and Memorandum of Association.

The registered address of the Company is P.O. Box 2441, Dubai, United Arab Emirates.

The condensed consolidated interim financial information comprises of the financial information of Amlak Finance PJSC and its subsidiaries (the “Group”). The principal activities of the subsidiaries are the same as those of the parent company. The extent of the Group’s shareholding in the subsidiaries is as follows:

2 ACCOUNTING POLICIES

2.1 ASSESSMENT OF GOING CONCERN ASSUMPTION

The COVID-19 pandemic has developed rapidly in 2020, with a significant number of cases. Measures taken by various governments to contain the virus have affected all economic activities in general and the Group’s business linked to its real estate portfolio in specific. The Group incurred a loss of AED 438 million during the year ended 31 December 2020 (2019: loss of AED 320 million) and witnessed a decrease in equity by AED 462 million. However during the period ended 30 September 2021, the Group has posted a profit of AED 1.084 billion, reflecting management’s steps to cope with the situation.

The Group’s management has taken several steps to address the situation including the following:

- Debt settlement auctions which are planned to continue throughout the rest of the year and generated a net profit of AED 389 million during period ended 30 September 2021;
- It has considered the impact of COVID-19 on the cashflow position and believe that the Group has sufficient resources to withstand the impact and support its operating activities for the foreseeable future.
- Planned sale of assets within the real estate portfolio.

Management has witnessed increased demand for certain properties within the Group’s investment property portfolio and expects this to continue throughout 2021 given the various government initiatives being implemented and Expo 2020 has commenced. These realisations will ultimately contribute to profitability of the group.

In its recent examination report the Central Bank (CB) pointed out that, under the present pandemic situation, the Group is likely to incur further losses and therefore does not have sufficient aggregate capital to absorb any further losses. In order to reduce the losses the CB has advised the Group to refrain from underwriting any new financing activities. When calculating the aggregate capital CB has excluded Mudaraba Instrument. Based on the Group’s Statement of Financial Position as at 30 September 2021, aggregate capital has been regularized which was reported to CB for their review.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the period ended 30 September 2021 (Unaudited) (continued)

2 ACCOUNTING POLICIES (continued)

2.2 BASIS OF PREPARATION

The condensed consolidated interim financial statements of Amlak Finance PJSC and its subsidiaries (the “Group”) are prepared in accordance with International Accounting Standard IAS 34, Interim Financial Reporting. The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those used in the preparation of the financial statements for the year ended 31 December 2020.

The condensed consolidated interim financial statements do not include all the information or disclosures required in the annual consolidated financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements as at 31 December 2020. In addition, results for the nine months period ended 30 September 2021 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2021.

The condensed consolidated interim financial statements have been presented in UAE Dirhams (AED) and all values are rounded to the nearest thousand (AED’000) except when otherwise indicated.

The condensed consolidated interim financial statements are prepared under the historical cost convention modified to include the measurement at fair value of investments at FVOCI, investment properties and advance for investment properties.

2.3 CHANGES IN ACCOUNTING POLICIES, ESTIMATES AND JUDGEMENTS

2.3.1 *New and revised IFRS applied with no material effect on the condensed consolidated interim financial statements*

The following new and revised IFRS, which became effective for annual periods beginning on or after 1 January 2021, have been adopted in these condensed consolidated interim financial information. The application of these revised IFRS has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

New and revised IFRS

Summary

Interest Rate Benchmark Reform — Phase 2 (Amendments to IFRS 9 Financial Instruments, IAS 39 Financial Instruments: Recognition and Measurement, IFRS 7 Financial Instruments Disclosures, IFRS 4 Insurance Contracts and IFRS 16 Leases)

The amendments in Interest Rate Benchmark Reform — Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16) introduce a practical expedient for modifications required by the reform, clarify that hedge accounting is not discontinued solely because of the IBOR reform, and introduce disclosures that allow users to understand the nature and extent of risks arising from the IBOR reform to which the entity is exposed to and how the entity manages those risks as well as the entity’s progress in transitioning from IBORs to alternative benchmark rates, and how the entity is managing this transition.

2.4 RISK MANAGEMENT

The Group’s financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2020.

*This represents the advances paid by the Group towards the acquisition of units in under-development real estate project in Dubai. The project has been delayed by a number of years and the date of completion is uncertain. The Group commenced arbitration in 2013 with one developer to facilitate recovery of advances paid of AED 780 million with a carrying value of AED Nil (31 December 2020: AED Nil). During the year ended 31 December 2019, the arbitration was awarded in the Group's favor with the cancelation of the original SPAs and addendum. Post arbitration ruling in Amlak's favor, negotiation for a settlement was initiated with the developer which was concluded with a settlement for undeveloped plots approximately valued at AED 705 million and four cash installments of AED 50 million each, over 2 years out of which first installment of AED 50 million was received during the period.

Investment properties consist of land, villas and units in buildings held for lease or sale. In accordance with its accounting policy, the Group carries investment properties at fair value.

The fair values of the properties are based on valuations performed at period / year end by independent professionally qualified valuers who hold a recognised relevant professional qualification and have relevant experience in the locations and segments of the investment properties valued. The valuation model used is in accordance with that recommended by the Royal Institute of Chartered Surveyors.

Provision of AED 60 million on foreclosed properties was recorded during the year 2020, as recommended by the Central Bank. Due to sale of property during the period provision of 16.6 million released on foreclosed properties.

Investment properties as at 30 September 2021 include a plot of land and two units (31 December 2020: two units) in Egypt owned by the Group's subsidiaries amounting to AED 199 million (31 December 2020: AED 198 million). All other investment properties are located within the UAE. The carrying values of AED 199 million (31 December 2020: AED 198 million) also includes foreign exchange gains and losses on currency translation of investment properties in Egypt which is included in equity.

8 INVESTMENT PROPERTIES (continued)

Except for investment properties in a joint venture, investment properties are categorised as Level 2 for fair value measurement as they have been derived using the comparable price approach based on comparable transactions for similar properties. Sales prices of comparable properties in close proximity are adjusted for differences in the key attributes such as property size and location. The most significant input into this valuation approach is the estimated price per square foot for each given location. There were no transfers into or out of the Level 2 category during the period / year.

Valuation technique used for investment properties in the joint venture is based on the income approach which uses significant unobservable inputs, hence is classified as Level 3. Inputs used by valuator include sale price range from AED 105 to AED 170 per sqft with absorption period of 4 years at 10% fair value rate.

Significant increases/(decreases) in comparable market value in isolation would result in a significantly higher/ (lower) fair value of the properties.

As at 30 September 2021, investment properties having fair value of AED 569 million (31 December 2020: AED 892 million) are mortgaged / assigned in favor of the security agent as part of the restructuring.

On 1 October 2014, the Group entered into a joint venture agreement with another party to develop a jointly owned plot of land in Nad Al Hammar. Amlak Finance PJSC acquired a 50% interest in Al Warqa Gardens LLC, a jointly controlled entity to develop a jointly owned plot of land in Nad Al Hammar. The Group has a 50% share in the assets, liabilities, revenue and expenses of the joint venture and accordingly under IFRS 11 it is deemed to be a jointly controlled operation. As the land is under development with a view to disposal in the market, it has been treated as property under development with an initial cost equal to its fair value at the time of transfer from investment property portfolio for AED 330 million. Subsequent expenditure to develop the land for resale is included in the cost of the property. The cash held by the joint venture is restricted, given that it is contractually committed to the development of the land under the joint venture agreement. The Group's share of this restricted cash balance at 30 September 2021 is AED 73 million (31 December 2020: AED 70 million).

The following items represent the Group's interest in the assets, liabilities, revenue and expenses of the joint operation after elimination of intercompany transactions:

8.1 COVID 19 Impact on Investment Properties:

On the 11 March 2020, the World Health Organization declared the novel strain of coronavirus, or COVID -19 a global pandemic and recommended containment and mitigation measures worldwide. The COVID-19 pandemic continues to adversely impact economic activity in the real estate sector and has contributed significant volatility and downward pressure on the fair values of the Group's investment properties. The impact of the virus has been rapidly evolving and as a result this may impact the Group's ability to recognize revenue due to changes in the probability of collection and reduction in lease income.

In determining the investment property valuations as of 30 September 2021, the Group has considered the potential impact (based on the best available information) of the uncertainties caused by the COVID-19 pandemic and has taken into account the economic and relief measures it has to extend to its tenants.

The overall impact has been treated as part of the unrealized loss on investment properties in these condensed consolidated interim financial statements. Any changes made to valuations to estimate the overall impact of COVID-19 is subject to very high levels of uncertainty, as little reasonable and supportable forward-looking information is currently available on which to base those changes.

As with any economic forecasts, the projections and likelihoods of the occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected.

The nature of the Company's deposits was significantly changed due to the restructuring undertaken in 2014, resulting in a fixed obligation to be paid to the Commercial Financiers and Liquidity Support Providers. In accordance with IFRS, due to the substantial changes in the terms of the investment deposits through the restructuring, a fair valuation assessment of the restructured obligations was performed based on the net present value of the contracted cash flows. As at 25 November 2014, the restructured obligations were initially recognised at fair value in the statement of financial position giving rise to AED 911 million of fair value gain which was recorded in the consolidated statement of income.

In June 2020, the Company again undertook restructuring of deposits of Commercial financiers; the face value of the restructured fixed obligations at period end is AED 4,219 million (31 December 2019: AED 4,219 million). Upon revised restructuring, repayment behaviour was significantly changed resulting into scheduled and non scheduled instalment payments.

The fair value adjustment is calculated using the original effective profit rate of 4.89%. The cumulative value of fair value gain amortised till to 30 June 2020 was AED 627 million (31 December 2019: AED 584 million) giving a residual fair value gain of AED 284 million as at 30 June 2020 (31 December 2019: AED 328 million). However upon restructuring in 2020, this residual fair value gain as at 30 June 2020 was increased to AED 497 million which will be fully reversed out over the repayment period till October 2026, with a resulting charge to the consolidated statement of income each year.

Based on revised CTA, the Group concluded debt settlement auctions through cash swap and asset swap during the period ended 30 September 2021. In debt settlement through cash, cash consideration of AED 267 million (31 December 2020: AED 96 million) was offered to financiers against settlement of their exposures and certain financiers settled their exposure of AED 566 million (31 December 2020: AED 257 million) which include investment deposits of AED 447 million (December 2020, AED 205 million), Mudaraba Instrument of AED 115 million (31 December 2020: AED 50 million) and profit in kind of AED 4 million.(31 December 2020: AED 1.5 million) Due to this settlement, The Group has recorded a gain of AED 190 million (31 December 2020: AED 105 million) in statement of income after netting of amortization of fair value adjustment on restructuring amounting to AED 46 million (31 December 2020: AED 24 million) and recorded a gain of AED 59 million (31 December 2020: AED 31 million) related to Mudaraba instrument, in statement of changes in equity.

13 COMMITMENTS AND CONTINGENCIES

Commitments

	<i>Notes</i>	<i>30 September 2021 AED'000 (Unaudited)</i>	<i>31 December 2020 AED'000 (Audited)</i>
Irrevocable commitments to advance financing	13.1	128,430	134,490
		128,430	134,490

13.1 Credit-related commitments include commitments to extend facilities designed to meet the requirements of the Group's customers. Commitments generally have fixed expiration dates, or other termination clauses, and normally require the payment of a fee. Since commitments may expire without being drawn upon, the total contract amounts do not necessarily represent future cash requirements.

Contingencies

- a) The Group is engaged in certain litigation proceedings in the United Arab Emirates, involving claims by and against it, mainly in respect of certain sale and financing transactions. The Group is defending these cases and, based on legal counsel advice received, believes it is less than probable that such actions taken by counter parties would succeed, except for cases against which a provision of AED 1 million (2020: AED 1 million) has been made.

14 COVID-19 AND EXPECTED CREDIT LOSS (ECL)

The existence of novel coronavirus (Covid-19) was confirmed in early 2020 and has spread globally, causing disruptions to businesses and economic activity. In response, governments and central banks have launched economic support and relief measures (including payment reliefs) to minimize the impact on individuals and corporates.

In the determination of Q3 2021 ECL, the Group has considered the potential impact (based on the best available information) of the uncertainties caused by the Covid-19 pandemic.

Identifying whether a significant increase in credit risk (SICR) has occurred for IFRS 9

Under IFRS 9, loans are required to be moved from Stage 1 to Stage 2 if and only if they have been the subject of a SICR since origination. A SICR occurs when there has been a significant increase in the risk of a default occurring over the expected life of a financial instrument.

The Group continues to assess borrowers for other indicators of unlikeliness to pay, taking into consideration the underlying cause of any financial difficulty and whether it is likely to be temporary as a result of Covid-19 or longer term.

During 2020, the Group has initiated a programme of payment relief for its impacted customers by deferring profit/principal due for a period of one month to six months. These payment reliefs are considered as short-term liquidity to address borrower cash flow issues. The relief offered to customers may indicate a SICR. However, the Group believes that the extension of these payment reliefs do not automatically trigger a SICR and a stage migration for the purposes of calculating ECL, as these are being made available to assist borrowers affected by the Covid-19 outbreak to resume regular payments.

During 2021 group extended the Covid deferral benefit to selected customers.

Reasonableness of Forward Looking Information and probability weights

Any changes made to ECL to estimate the overall impact of Covid-19 is subject to very high levels of uncertainty as limited forward-looking information is currently available on which to base those changes.

The Group has previously performed historical analysis and identified key economic variables impacting credit risk and ECL for each portfolio and expert judgement has also been applied in this process. These economic variables and their associated impact on PD, EAD and LGD vary by financial instrument. Forecast of these economic variables (the “base, upside and downside economic scenario”) are obtained externally on a quarterly basis.

As with any economic forecasts, the projections and likelihoods of the occurrence are subject to a high degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected.

The COVID deferral benefit was not availed during Q3 2021 and the deferment period for customers who have availed before expired in Q3.

14 COVID-19 AND EXPECTED CREDIT LOSS (ECL) (continued)

As per the requirements of the Central Bank of UAE, the Group has divided its customers benefitting from payment deferrals into two groups as follows:

Group 1: includes those customers that are not expected to face substantial changes in their creditworthiness, beyond liquidity issues and are temporarily and mildly impacted by the Covid-19 crisis.

For these clients, the payment deferrals are believed to be effective and thus the economic value of the facilities is not expected to be materially affected. These customers will remain in their current IFRS 9 stage, at least for the duration of the crisis, or their distress, whichever is shorter.

Group 2: includes those customers that are expected to face substantial changes in their creditworthiness, in addition to liquidity issues that will be addressed by payment deferrals.

For these customers, there is sufficient deterioration in credit risk to trigger IFRS 9 stage migration. The Group continues to monitor the creditworthiness of these customer, particularly indications of potential inability to pay any of their obligations as and when they become due. The Group does not have these customers.

The impact of Covid-19 crisis continues to filter through into the real economy. In view of this, the Group has taken a proactive approach and on an ongoing basis for all customers, the Group continues to consider the severity and extent of potential Covid-19 impact on economic sectors and outlook, cash flow, financial strength, agility and change in risk profile along with the past track record and ongoing adaptation. Accordingly, all staging and grouping decisions are subject to regular review to ensure these reflect an accurate view of the Group's assessment of the customers' creditworthiness, staging and grouping as of the reporting date.
